Why Uzbekistan ?

The Uzbek economy is said to be in a gradual transition to the market economy. The Gross Domestic Product (GDP) in Uzbekistan expanded 5.2 percent year-on-year in the first nine months of 2018. As reported, Uzbekistan is predicted to be one of the fastest-growing economies in the world (top 26) in future decades. Four sectors of the country were identified for consideration: employment, enterprises, exports, and energy and resource efficiency.

Businessmen are increasingly showing an interest in creating small manufacturing enterprises that are actively developing innovative technologies, manufacturing export-oriented and import-substituting products. Entrepreneurs are increasingly active in foreign markets, supplying high-quality textile, leather and footwear products, furniture and much more.

On the textile front, Uzbekistan is among the world's leading cotton producers. Moreover, Uzbekistan manufactures machines and equipment for cotton cultivation, harvesting, and processing and for use in the textile industry, etc. The leading exports from Uzbekistan consist largely of extracted natural resources or raw materials such as cotton and manufactured goods such as machines, textiles, etc. Moreover, a resolution was passed by the Cabinet of Ministers of the Republic of Uzbekistan on additional measures for the further development of cotton and textile production.

What is the Market Potential ?

During the interaction with the Uzbek industry experts, we have discovered that the Uzbekistan printing market have positive attitude towards adopting newer technologies and techniques in printing – be it screen, digital, textile, sublimation, packaging, etc. The printing industry there keeps on updating technology and knowledge to build capacities and capabilities to undertake any type of printing services.

So, considering the needs of the Uzbekistan printing industry and garment printing/textile industry, Screen Print Uzbekistan 2019 will be organized by Vibgyor Exposition. Print service providers and print buyers in Uzbekistan and neighbouring countries will have a great opportunity to explore products and services in the field of Textile, Digital, Sublimation Printing & graphics/signage printing and also garment and apparel machinery. And at the same time the exhibitors will have the opportunity to explore potentials in a new emerging market.
